Summary

Software Engineer with a B.Tech in Computer Science and Engineering and hands-on experience in Java, JavaScript, REST APIs, SQL, and MERN stack development. Strong foundation in Data Structures & Algorithms, Object-Oriented Programming, DBMS, and software development lifecycle practices. Experienced in building and deploying full-stack applications, developing RESTful APIs, and using Git/GitHub for version control.

Education

B.Tech in Computer Science and Engineering — **Aug 2022 – May 2026**
Prasad V. Potluri Siddhartha Institute of Technology, Vijayawada — **CGPA: 8.11**

Intermediate (MPC) — **Apr 2020 – Mar 2022**
Narayana Jr College, Vijayawada — **Percentage: 91.7**

SSC — **Mar 2019 – Mar 2020**
Krishna Chaitanya School, Vijayawada — **Percentage: 96.5**

Technical Skills

Programming Languages: Java, JavaScript, Python, C++
Web Technologies & APIs: Java, Node.js, Express.js, REST APIs, React.js, HTML, CSS, API Integration
Databases: SQL, MongoDB
Core Computer Science: Data Structures & Algorithms, OOP, DBMS, Operating Systems, Computer Networks
Development Tools: Git, GitHub, VS Code, Vercel, Render

Internship Experience

Java Full Stack Developer Virtual Internship — **Jan 2026 – Mar 2026**
EduSkills Academy & AICTE

- Applied Object-Oriented Programming and software development principles while implementing application features and maintaining code using Git/GitHub.
- Gained hands-on exposure to the Software Development Lifecycle, testing, debugging, version control, and documentation.

Projects

NutriWise — *React.js, Node.js, Express.js, MongoDB, OpenAI API*
Live: nutriwise-smoky.vercel.app

- Developed and deployed a full-stack web application using React.js, and MongoDB for personalized diet recommendations.
- Designed and executed RESTful APIs for data processing and communication between frontend and backend services.
- Integrated MongoDB for persistent data storage and enforced database operations for application data retrieval.

Online Examination System — *React.js, Node.js, Express.js, MongoDB*
Live: online-examination-system-zeta.vercel.app

- Built a full-stack examination platform with authentication, exam management, result processing, and score visualization.
- Developed REST APIs for managing users, examinations, and results using Node.js with MongoDB database integration.
- Debugged API and application issues during development and used Git/GitHub for source-code management.

Travel Blog Website — *HTML, CSS, JavaScript*
Live: travel-blog-txhy.onrender.com

- Designed a responsive web application featuring destination highlights, travel stories, galleries, and interactive navigation.
- Implemented client-side functionality and responsive layouts using HTML, CSS, and JavaScript with focus on usability and maintainable code.

Certifications

- Programming in Java – NPTEL, IIT Kharagpur (2024)
- Data Structures and Algorithms using Java – Infosys Springboard (2024)
- Database Management System – NPTEL, IIT Kharagpur (2024)
- AWS Cloud Practitioner Essentials – AWS (2026)
- Python Fundamentals – Infosys Springboard (2026)

Achievements

- Solved **200+** problems on LeetCode, demonstrating consistent practice in Data Structures & Algorithms and problem solving.
- Earned **Gold Badges** in Problem Solving and Contests on CodeChef.
- Participated in college hackathons and coding contests.
